

David Marabottini

Senior Front-end Developer with 10+ years of experience in building scalable and high-performance web applications. Strong expertise in React and TypeScript ecosystems, with a focus on performance optimization, SEO, and modern architectures. Solid background in data analysis and SQL, with recent hands-on experience in machine learning and data-driven systems using Python. Certified Professional Scrum Master (PSM I and II), used to working in Agile environments and cross-functional teams.

WORK EXPERIENCES

04/2026 - present

PHP jQuery fullstack developer

PHSE

Development and maintenance of the internal transport and warehouse management system for a pharmaceutical transport company.

- * Maintenance of legacy features, development of new features (e.g. AWB) and optimization of queries and performance.
- * Integration of tools such as Jira and Confluence into business processes, as well as various Agile practices.
- * Continuous improvement of code and architecture, with particular attention to scalability and maintainability.
- * Git process improvement

Technologies: PHP, MySQL, jQuery, Bootstrap, DevExtreme.

02/2026 - ongoing

Odoo ERP Specialist & Process Automation

Kagi srl

Optimization and customization of the **Odoo ERP** ecosystem to digitize and streamline business workflows.

- * **Low-Code Automation:** Designed and implemented automated actions based on custom prompts to increase operational efficiency.
- * **Field Service Optimization:** Tailored the "Field Service" module workflow to meet specific business requirements and improve mobile workforce management.
- * **Business Intelligence & Reporting:** Developed data-driven dashboards using **Power BI** and customized technical document layouts via the **QWeb** (XML-based) engine.

05/2025 - ongoing

Business and Technical Support

MPL

Technical and logistical support and client acquisition for family business

06/2019-05/2025

Front-end Developer

Key2Business

Front-end development for enterprise web portals in banking, media, and retail sectors.

Focus on performance, SEO, and React/Next.js architectures within Agile teams.

Technologies: Reactjs, Nextjs, Redux/saga/selectors, jest, storybook, AMP, SCSS, Typescript, Material UI, styled components, Recoil.

Methodologies: Scrum, Kanban, Waterfall

	Tools: Visual Studio Code, Git, Jira, Jenkins.
02/2018-05/2019	Front-end Developer Blazar Front-end development on various management applications in banking and energy sectors within dynamic and often agile environments. Technologies: React.js, SCSS, JavaScript Methodologies: Scrum Tools: Jira, Trello, Git, Gitlab, Visual Studio Code
04/2017 - 12/2017	PHP Developer JigGiga Development of a portal in PHP5, MySQL, JQuery, Bootstrap for managing black boxes for car fleets. Technologies: PHP5, MySQL, JQuery, Bootstrap
01/2016 - 04/2017	Fullstack Developer Modis/Business Changers Frontend development, procedures, and algorithms for regional public funding application forms. Technologies: JavaScript, Oracle V9, Apache FOP
01/2015 - 10/2015	SQL Expert and Reporting Specialist Runtime Solutions Creation of queries, reports, and layouts in Crystal Report based on SAP document platforms for various clients. Technologies: Crystal Report, SQL Server, SAP
07/2014 - 11/2014	.NET Developer Crenway Srl Development and monitoring of the “Punti Petalo” startup portal. Technologies: ASP.NET Framework, C#, JavaScript, SQL (MS SQL Server), LINQ, Web services, Visual Studio, Team Foundation, Team Explorer, Google Analytics, Windows Azure
PERSONAL PROJECTS	
12/2025 - ongoing	Web platform for scam reporting and detection Web platform for spam email/SMS detection with React/TypeScript frontend and Python ML backend (Naive Bayes). Technologies: React, TypeScript, Tanstack Query, SASS, Axios, Auth0, vitest, Python, Flask, scikit-learn, pandas, joblib. Frontend repository - Backend repository
09/2025 - ongoing	Modular CV Rendering Engine & CI/CD Pipeline Modular XSLT/XSL-FO engine for automated CV generation with multi-language and multi-template support. Includes CI/CD pipeline for automated document generation and deployment. GitHub repository
06/2025 - 08/2025	Machine Learning Study Advanced study of machine learning and data science in Python with predictive model development. Libraries used: scikit-learn, imbalanced-learn, pandas, matplotlib, optuna. GitHub repository .

CERTIFICAZIONI	
	PSM II - Professional Scrum Master II
	PSM I - Professional Scrum Master I
EDUCATION	
21/10/2025 - 31/10/2025	Cybersecurity Intensive course on cybersecurity principles, data protection, and digital threat defense.
01/10/2025 - 20/10/2025	Advanced Excel and Power BI Advanced training in data analysis, automation, interactive dashboards, and modeling with DAX and Power Query.
06/2025 - 08/2025	Machine Learning and Data Science in Python: Complete Course Advanced training in predictive models, ML pipelines, and automated algorithm optimization.
02/2025 - ongoing	English Lessons English conversation practice to improve fluency and professional communication.
2010 - 2013	Computer and Information Engineering (not completed) Engineering studies focused on programming, software architectures, networks, and mathematical foundations.
2009	Technical Diploma in Programming and Accounting Technical education in programming, SQL, applied mathematics, and business disciplines.
HARD SKILLS	
MACHINE LEARNING	Apprendimento supervisionato Apprendimento non supervisionato Metamodelli Gridsearch/randomizedsearch Gestione dati sbilanciati
DATA	Python R Notebook Jupyter Machine Learning Power Query Power BI Excel/Power pivot/DAX
DATABASE	SQL SQL Oracle MySQL Ms SQL
FRONTEND	JavaScript TypeScript React, Next.js Redux/saga, redux toolkit SEO, Web vitals, accessibilità HTML5/CSS3 Bootstrap JQuery
SCRUM	Scrum Suite Atlassian (Jira, Confluence ecc...)
ALTRO	Pacchetto office 365 XSL-FO figma, Miro
SOFT SKILLS	
	Teamwork Problem solving Lateral thinking
LINGUE	
Italian	Madrelingua
English	B1 (<i>Utente avanzato/intermedio</i>)
